SUMMARY

Azure Administrator and Cloud Operations professional with experience supporting Microsoft Azure infrastructure, Windows Server, and Linux environments. Hands-on experience with Azure Virtual Machines, networking, storage, backup, monitoring, Service Health, incident management, and infrastructure troubleshooting. Skilled in Azure Portal, PowerShell, Azure Resource Graph, ServiceNow, and cloud infrastructure operations.

WORK EXPERIENCE

Sr. System Administrator — Wipro Limited, Gurugram

Jul 2022 – Present

- Monitored and supported Microsoft Azure infrastructure including Virtual Machines, networking, storage, backup, monitoring, and related cloud resources.
- Performed Azure infrastructure monitoring, alert analysis, incident investigation, and first-level troubleshooting to support resource availability.
- Administered Windows and Linux server environments including patching, configuration checks, performance monitoring, and troubleshooting.
- Troubleshot Azure networking components including VNets, subnets, network interfaces, IP configuration, NSGs, DNS, VPN connectivity, and firewall-related issues.
- Handled Azure infrastructure incidents and service requests through ServiceNow while following SLA requirements, operational procedures, and escalation processes.
- Used PowerShell and Azure Resource Graph to query Azure resources, analyze configurations, identify impacted resources, and support operational reporting.
- Analyzed Azure Service Health advisories, retirement notifications, and infrastructure changes to identify potentially affected Azure resources.
- Supported Azure backup and recovery operations and performed infrastructure health and configuration validation.
- Documented troubleshooting activities, resolution details, and operational findings in ServiceNow and coordinated escalations with L2/L3 teams.

AZURE TECHNICAL SKILLS

Azure Infrastructure	Virtual Machines, VNets, Subnets, NSGs, NICs, Storage, Backup
Azure Monitoring	Azure Monitor, Alerts, Service Health, Resource Health, Log Analysis
Azure Networking	Virtual Networks, Subnets, NSGs, Network Interfaces, IP Configuration, DNS, VPN, Firewall Basics
Azure Administration	VM Provisioning, Patch Management, Backup & Recovery, Performance Monitoring, Infrastructure Troubleshooting
Azure Tools	Azure Portal, Azure Resource Graph, PowerShell, Azure CLI
Identity & Access	Microsoft Entra ID, Active Directory, Microsoft Entra Connect
Operating Systems	Windows, Windows Server, Linux
IT Operations	ServiceNow, Jira, Incident Management, Troubleshooting, Root Cause Analysis, SLA Management
Other Tools	Remote Desktop, BitLocker, Microsoft Outlook
Infrastructure as Code	Terraform, ARM Templates, Bicep

CERTIFICATIONS

- | | |
|--|----------------------------|
| – Microsoft Azure Fundamentals (AZ-900) | Credential |
| – Microsoft Azure Administrator Associate (AZ-104) | Credential |
| – Microsoft Azure Developer Associate (AZ-204) | Credential |

EDUCATION

2023 – 2026	B.Tech (Computer & Information Sciences), BITS Pilani
2019 – 2022	Diploma (Computer Science & Engineering), New Government Polytechnic, Patna
2018 – 2019	High School (PCM), Children Delight School, Saran, Bihar
